教学团队

- 2020.2-中国大学MOOC（7943人选课）
- 学习强国（499595次点播）上线
- 北京市高校优质课程研究会“融优学堂”
- （21123人选课）

牵头建设了“大数据课程群”建设联盟

大数据

北京理工大学 | 共5门课

随着云时代的来临，大数据（Big data）也吸引了越来越多的关注。分析师团队认为，大数据（Big data）通常用来形容一个公司创造的大量非结构化数据和半结构化数据，这些数据在下载到关系型数据库用于分析时会花费过多时间和金钱。大数据分析...

课程群高校

北京航空航天大学　西北工业大学　华东师范大学　山东大学　北京理工大学

Grading Structure

- Online Courses: 10% (Discussion for chinese students,Each student is required to complete 'Ten Questions and Ten Answers')
- Project: (40% for chinese students,50% for international students)
- Final Exam: 50% (English version for international students and English-medium class)

Project Requirements

- Find your own data, design your own scenario.
- English classes and international students: The final project must be presented with an English PPT, written in an English project design report, and have a working software prototype.
- Chinese classes: The final project can be presented with an English PPT, written in an English project design report, and have a working software prototype.
- General elective classes and Yanhe Alliance classes: The final project can be presented with an English PPT, written in an English project design report, and have a working software prototype.
- Generative models like ChatGPT or OpenSource GPT should be used in your project work.

Project and Submission

- Proposal (Week 2)
- Midterm Checkpoint (Week 5)
- Final Submission (Week 7 pre-submission, Week 8 final review).
- Platform for submission: https://lexue.bit.edu.cn/enrol/instances.php?id=17281

Online course Registration

- Chinese Class, General Elective Class, Yanhe Alliance (students from 9 schools)

  https://www.icourse163.org/course/BIT-1449814164

- Innovative Thinking in the Age of Artificial Intelligence(人工智能时代的创新思维)

  to be online...

- International Students

  need not use the online course

Experiment Datasets

- Dataset 1: Alibaba Tianchi Competition
- https://tianchi.aliyun.com/competition/entrance/531830/information
- Dataset 2: Kaggle Hotel Booking Demand https://www.kaggle.com/jessemostipak/hotel-booking-demand?select=hotel_bookings.csv
- Dataset 3: Stanford SNAP Dataset http://snap.stanford.edu/data/web-Google.txt.gz

Group Work and Submission

- Teams: 1-2 people per group, with clear responsibilities.
- Submit voice-recorded PPTs and project demos via https://lexue.bit.edu.cn/enrol/instances.php?id=17281.

Proposal Requirements

- Cover Page: Project Title, Name (including group members)
- Page 1: Main Content of the Project
- Page 2: Project Tasks
- Pages 4 to N: Technical Solutions
- Page N+1: Major Issues and Technical Challenges
- Page N+2: Expected Goals
- Page N+3: Research Progress

Q&A and Support

- All teachers and teaching assistants are available for questions via the group chat.
